### TOUR INFORMATION:

Our guide collects you at 07h30 at your accommodation establishment in Outjo, whereafter you will depart for the Private Game Farm Tour.

This private game reserve's aim is to conserve large game, by introducing indigenous game and predators back into their natural habitat.

We will introduce you to a success story of the critically endangered species, namely rhinoceros, that is currently on the brink of extinction, where this game reserve have made a significant impact not only to protect the species, but also growing the population.

During this tour you can observe the feeding process, as well as have the opportunity to perhaps see other protected species, such as sable antelope.

We will return to Outjo at about 12h00.
